

Class #7

Outdoor Equipment – Tents

REASONS CLASS

The Robinsons are avid outdoorsmen. They love spending their summers camping and hiking trails in state parks close to their home. This summer, they have decided to take an extended summer trip to Colorado to try their hand at mountain bike riding. The Robinson's have two kids, but have allowed each to invite one friend for the family vacation. They need to purchase a tent with a lot of room so everyone can fit comfortably and have room for their gear. Mr. Robinson has checked the forecast for the trip and it is calling for a high chance of rain. They want to purchase a high quality, sturdy tent. They need to buy additional camping items for the trip, so the best tent for the money is a priority.

Which tent will be the best for the Robinsons? Mr. Robinson has a \$100 gift card from Cabela's that can be used toward the purchase of camping gear.

#1
