

Cookware

Marcus and Kaitlyn are getting married in July and they need a set of pots and pans. They both have a very busy schedule so they need a set of pans that are maintenance free but they want a set that will last for many years.

They want a set with at least 3 different pot/saucepan or sauté pan sizes and 2 skillets, preferably with matching lids. The young couple would like to have the highest quality cookware set they can get with their budget of \$250. What should Marcus and Kaitlyn buy?
