

Class # 3

Outdoor Equipment- Sleeping Bags

Mason will be attending the Fishin N Fun 4-H Camp in the Texas Panhandle this summer. Tents will be provided but he will need to bring a sleeping bag. The temperature June is warm so he wants a sleeping bag that will keep him from getting too hot at night. Mason will have to carry his sleeping bag and bags for about a 2 mile hike so he does not want an extremely heavy sleeping bag. His parents told him that he could spend up to \$70. Which sleeping bag is the best choice for Mason?
