### Class 4

Marshall is a 17 year old 4-H member from Potter County. He has been in the 4-H Photography Project for 6 years and a member of the Shooting Sports Team. As a senior he will be a member of his school's newspaper staff and would like to step up to a DSLR camera that gives him more functionality to change lenses. He enjoys taking action pictures at sporting events, but is usually far from the action in the bleachers or the sidelines. His grandparents promised to provide \$350 for him to use along with \$250 that he saved to purchase a new camera. He needs enough money to buy the camera, a memory card (\$19.99), and pay taxes (8%).

# #1

## Nikon D3200 24.2 MP Digital DSLR Camera

### *Features*

- 18–55mm f/3.5–5.6G VR lens included
- 24.2-megapixel CMOS sensor delivers incredible detail and gorgeous enlargements
